Mission

Apex Power & Roofing exists to protect the homes and families we serve — by delivering safe, code-compliant electrical work and roofing solutions that last. We do not cut corners. We do not guess. We diagnose, we explain, and we give our customers options.

Services Offered

Electrical Services

Service	Description
Electrical Service Call	Diagnose and repair electrical issues — outlets, switches, circuits, breakers, panels
Panel Inspection & Upgrade	Evaluate existing panel; upgrade to 200A or 400A where needed
New Circuit Installation	Add dedicated circuits for appliances, HVAC, EV chargers
EV Charger Installation	Level 2 home charger installation — all major brands
Whole-Home Generator	Standby generator installation, service, and repair
Surge Protection	Whole-home surge protection installation
Lighting Installation	Interior and exterior lighting, fans, fixtures
Safety Inspection	Code compliance and safety evaluation — pre-purchase, insurance, or peace of mind

What We Do NOT Service:

- Low-voltage / data / cable / AV wiring
 - Appliance repair (not wiring-related)
 - Commercial electrical (3-phase, industrial)
 - Solar panel installation or removal (refer to approved partner)
-

Roofing Services

Service	Description
Roof Inspection	Full inspection — pre-purchase, post-storm, insurance, or maintenance
Shingle Repair	Repair of asphalt shingle sections
Tile Repair	Concrete or clay tile repair and replacement

Foam Roof Repair	Spray polyurethane foam repair and recoating
Full Roof Replacement	Complete tear-off and re-roof — all material types
Storm Damage Assessment	Document and assess hail/wind damage for insurance claims
Gutter Installation	K-style and half-round gutters (own scope — not referred out)

What We Do NOT Service:

- Roof age 16+ years — replacement only, no repairs
- Septic / plumbing / HVAC on roof (refer to trade partner)
- Solar panel removal/reinstall — coordinate with customer's solar provider
- Commercial roofing (flat membrane, built-up) — escalate to manager before declining

Pricing Structure

Electrical

Call Type	Customer-Facing Fee
Diagnostic / Service Call	\$89 (waived if repair is approved)
Estimate (panel, new circuit, EV)	Free
After-hours emergency dispatch	\$149 trip charge

Roofing

Call Type	Customer-Facing Fee
Inspection / Estimate	Free
Insurance claim inspection	Free
After-hours emergency tarp	\$199 call-out fee

All repair pricing is presented by the field rep after diagnosis. No pricing is given over the phone.

Membership / Club Program

Apex Home Protection Plan — \$19.99/month or \$199/year

Includes:

- Annual electrical safety inspection
- Annual roof inspection
- 10% discount on all service work
- Priority scheduling (same-day or next-day)
- No after-hours surcharge
- Transferable to new homeowner

Club members are tagged in ServiceTitan. CSRs must verify and acknowledge club status on every call.

Service Call Levels — Electrical

System age determines opportunity level and tech assignment.

Level	Panel/System Age	Opportunity Type	Notes
L1	10+ years	Replacement / upgrade opportunity	Assign to senior tech only
L2	6–9 years	Repair-focused	Standard tech
L3	0–5 years	Repair or warranty	Standard or junior tech

Roof Age Policy

Roof Age	Action
0–15 years	Repair or replacement — present both options
16+ years	Replacement only — do not perform repairs; warranty cannot outlast remaining structure

Permit Policy

All electrical work requiring a permit is handled by Apex — we pull the permit, schedule the inspection, and provide the customer with the final inspection sign-off. Customers are informed of this at time of estimate, not after the job starts.

Roofing permits: required for full replacement in Maricopa County. Handled by Apex. Included in replacement quote.

Opportunity Classification

Used by CSR and field reps to categorize call revenue potential.

Classification	Criteria
OP (Opportunity)	Customer spent < \$1,000 in last 12 months — replacement/upgrade conversation

	possible
NO (No Opportunity)	Customer spent > \$1,000 in last 12 months — service/repair only expected

Key Team Roles

Role	Responsibility
CSR	Inbound calls, booking, qualification, tagging
Dispatch	Board management, tech assignment, delay communication
Electrician L1	Senior — panel work, estimates, high-opportunity calls
Electrician L2/L3	Repair and service calls
Roofing Estimator	All roofing estimates and inspections
Roofing Crew Lead	Repair and replacement jobs
Sales Manager	Escalations, pricing approvals, declined-fee situations

Competitor Context

Primary local competitors: Cox Electric, Handyman Connection (electrical), Lyons Roofing, AZ Roofing Systems.

Our differentiation:

- Same-day service for electrical emergencies
- Transparent flat-rate diagnostic fee
- Single company for both electrical and roofing needs
- Club membership locks in priority access and annual inspections

Emergency Protocol

Any call involving:

- Burning smell / sparks / smoke from electrical
- Shock or electrocution risk
- Active roof leak causing interior damage / ceiling collapse risk

→ Mark as emergency. Dispatch immediately. Do not place in standard queue.

→ After-hours: patch to on-call dispatcher.

→ Safety hazard + active water near panel: do not dispatch until customer confirms power is off at main breaker.

Frequently Asked Questions (CSR Reference)

"Can you give me a price over the phone?"

"Our technician needs to see the issue in person to give you an accurate quote — we never want to guess on electrical or roofing work. The diagnostic visit is \$89 and is waived if you approve any repair."

"Do you work with home warranty companies?"

"We don't work directly with home warranty companies, but we're happy to provide you with a detailed report you can submit to your provider."

"Do you do commercial work?"

"We focus on residential properties. Let me check with our team to see if your specific project falls within what we handle — can you tell me more about the property?"

"The roof is only 5 years old — do I need a full inspection or just a repair?"

"At 5 years, repairs are absolutely an option. We'll send our estimator out for a free inspection and walk you through exactly what's needed."

"Do you handle solar on the roof?"

"For solar removal and reinstall, we coordinate with your solar provider — we'd schedule the roofing work around their availability. We don't remove or reinstall solar panels ourselves."
